

## CARE OF THE MOUTH AFTER AN EXTRACTION

1. Immediately following a tooth extraction, keep pressure on gauze until the bleeding stops, 30-45 min. Repeat if necessary.
2. Place ice pack on the side of your face on and off for 24 hours.
3. Do not suck on extraction site.
4. Do not drink hot liquids or smoke.
5. On the following day gently rinse your mouth with warm salt water (1 teaspoon of salt in 1/2 glass of water).
6. If you have any questions concerning the extraction, please call our office.
